

CuraMedix Connect

Valuable insights for better clinical and economic outcomes

When it comes to using **innovative approaches to improve patient outcomes**, we can all find inspiration by looking to the success stories of our medical peers. And that's exactly what you'll find in this issue of *CuraMedix Connect*.

Here we have gathered valuable insights from physicians who have seen incredible results with a **treatment approach that combines EPAT with other regenerative methods** including PRP, ultrasound imaging and amniotics. Learn about the secrets to their success in the articles below! Also, if you'd like to dig into **the science behind what makes EPAT so effective**, don't miss our latest Physician Overview of the Level 10 book, *Shock Wave Therapy in Practice: Multidisciplinary Medical Applications*.
